## Lee’s most popular programs:

***The Selfies of Advocacy:*** Being a self-advocate is a necessary skill to promote **self**-sufficiency, and help deliver quality service to clients of all ages. In this day and age of selfies, there is no better time to focus on **self**-advocacy by emphasizing the importance of **self**-awareness, **self**-respect, **self**-pride, **self**-care and **self**-control. This program will empower you about advocacy, not only for your clients, but also for yourself.

### ***The Difference You Make:***

Each of us has the power to positively impact those around us and truly make a difference. In truth, most professionals give so much of themselves, their talents and their resources to clients and coworkers that there is very little energy left to share with family and friends. By focusing on the difference you make on a consistent basis with everyone you encounter, you can fuel your own energy, maintain momentum, and enhance communication and relationships. In this session, you will discover the opportunities that exist to take control of your life, renew your energy and positively influence all the people you encounter at work, at home and beyond. The result is greater self-satisfaction and living a more fulfilling and purposeful life. When you give so freely of yourself to others, you should be able to enjoy life to the fullest extent possible!

*Nurturing growth from within*

**Stress Relief by Nature** (this is a great workshop to support green conference efforts). Staffing issues, budgeting, and customer and administrative demands are a part of every day life, contributing to a significant amount of stress. On the other hand, both rural and urban areas have green spaces that can help us relax, reduce stress and renew our energy every day. Connecting to the natural beauty, regardless of where we live and work helps us calm the chaos. During this workshop you will experience nature’s powerful source that helps us enhance our physical and mental well-being. Exposure to nature not only makes you feel better emotionally, it contributes to your physical well-being, reducing blood pressure, heart rate, muscle tension, and the production of stress hormones.

**Manage Your Time – Manage Your Life!** Have you ever looked at your growing to-do list and felt overwhelmed because you didn’t know where or how to get started? Do you get to the end of a busy day and realize that you weren’t very productive and only accomplished a fraction of what you had hoped for? Do you sometimes feel like you have too much to do and not enough time to do it all? Are you putting important things, like family, and personal pursuits, on hold because there’s too much work to be done? Do you waste too much time each day getting distracted with low priority busywork or diversions like checking email or surfing the web? Yeah, me too!

This session will help you learn to focus on priorities and learn techniques to manage your time and energy in a manner that’s most meaningful to you and help contribute to the success to which you aspire. The skills and tips gained can be applied, personally and professionally, providing you the opportunity to enrich the overall quality of your life. Regardless of where you are on the continuum of professional development, this session will impart valuable concepts to help you manage your energy, and ultimately, controlling your stress.

**Simply Put:** Lee Ann Szelog finds much joy in capturing and sharing nature’s exquisite beauty. Through her photos and words she helps people slow down to observe simple, humorous, and stunning pleasures our natural world provides, allowing us to change our perspective, thereby changing our view of life, personally and professionally.

**Dreams Do Come True:** Imagine living in a century-old lightkeeper’s house on the coast of Maine. It sounds like a fantasy, but for Lee Ann Szelog, her lifelong dream became reality when she and her husband, Tom, settled into the keeper’s quarters at the Marshall Point Lighthouse in Port Clyde, Maine.

This presentation will not only provide inspiration and tips to help you pursue your dreams, but will also allow you to experience what it is like to live in an authentic and operating lighthouse on the Maine coast. You will witness the ever changing tide of emotion and drama, from laughter and excitement to sentiment and joy, through compelling stories and extraordinary photographs by Lee and Tom. Based on the Szelog’s book, *Our Point of View – Fourteen Years at a Maine Lighthouse*, you will not only encounter extraordinary events, people, wildlife, storms and the changing seasons, you will find inspiration to pursue your own dreams.

## Get to know Lee

Lee Ann Szelog is a sought-after speaker in New England as well as nationally, and an award-winning author, photographer, nature retreat coach and former lighthouse keeper who has learned to rise above adversity, find her voice, and challenge herself to overcome her fears and realize her dreams. After enjoying a successful 28-year career as a marketing and training executive, and receiving national awards for her work, Lee has been President of Simply Put, LLC, a company she founded 11 years ago to help

individuals, organizations and companies nurture growth from within. She has authored a number of professional development classes including, *The Art of Human Relations*, *The Art of Management & Leadership*, *The Art of Public Speaking*, and *Your Quest for Excellence*. Clients hire her when they are ready to help their audience improve communication skills, teamwork, attitude, creativity, change, job satisfaction, and wellness to maximize their happiness and capacity, personally and professionally. Many clients have said, "Lee is the best speaker we've ever had!"

Striving to maximize her capacity, she also works with her husband, Tom, using their words and photographs to inspire people. They have documented life, human and wild, in two quintessential Maine homes, a lighthouse on the coast and a log cabin in the forest, resulting in the publication of two books. The first is the multi-award-winning, *Our Point of View-Fourteen Years at a Maine Lighthouse*, featuring Marshall Point Lighthouse in Port Clyde, and the second is *By a Maine River – A Year of Looking Closely*, which explores the natural beauty found in the backyard of their log cabin in the woods. As passionate advocates for wildlife conservation, Tom and Lee are dedicated to sharing their words and photographs in narrated photography presentations and books to educate and inspire people about the important role our natural world plays in our lives. One of their current endeavors is a feature length film, presently in post production, that will allow audiences to experience nature's peace of forest.

Lee Ann is grateful for the opportunity to help others maximize the power they have within. The commonality with all her audiences, regardless of age, industry or experience is that people are people wherever she goes, all searching for tips and tools to enhance communication, live life rather than react to it, and control stress. She strives to move audiences to focus and implement practical skills to help them reach higher levels of success and happiness, personally and professionally. As evident by the responses she receives, participants connect emotionally through her words, and professional photographs that vividly reinforce the important points, skills and tools she imparts. The result is the audience is engaged in an intimate and visual manner, creating memorable learning moments, lasting impressions and an inspirational, artistic experience that helps change behavior.

Lee is flattered with all the kind sentiments that many audience members share with her, a few of which are listed on page 4. Her greatest satisfaction comes from knowing participants are trying the techniques she shares, and finding success with using them.
