

Are you digging around for a fresh and fun presentation to entertain and delight your audience while providing meaningful content? Look no further - You have found your buried treasure in this presentation:

Work Like a Dog – Lessons to Get Your Tail Waggin!

If your audience is like most, they may be dog-tired, in the doghouse at work, working in an office that has gone to the dogs, feel like they are constantly barking up the wrong tree or digging a hole to nowhere. Often, we give up too easily, or don't dig deep enough. Lee will inspire us to keep digging.....we might be surprised at what we will find. Dogs instinctually know this, because in every hole they create, there is something worth digging for! This dog (no pony) show, with puppy-like energy and fun, will teach old and young new tricks in the areas of communication, attitude, and change to name a few, so your audience can maximize their productivity

and contentment, and discover their true selves, buried deep within. These lessons come from the love story Lee Ann Szelog imparts from sharing life with her canine companions, Moose and Bear. At the conclusion of this uplifting and inspiring program your audience members will feel like a lucky dog and will be ready to dig deep to achieve the success to which they aspire.

NOTE: As an added feature to this program, Lee will make a donation to a local animal shelter in the name of your Organization.

Meet Lee Ann Szelog

Speak! One of the first things we teach our dogs is to speak on command, but speaking did not come easy for Lee. Ironically, she is now a sought-after speaker in New England as well as nationally, and an award-winning author, photographer, nature retreat leader and former lighthouse keeper, as a result of her diligence with working hard to find her voice as a shy child. But, speak she did, at every opportunity in order to overcome her fears and realize her dreams. After enjoying a successful 28-year career as a marketing and training executive, and receiving national awards for her work, Lee has been President of Simply Put, LLC, a company she founded 11 years ago to help individuals, organizations and companies nurture growth from within. Her favorite and most memorable presentation is *Work Like a Dog*, sharing heartwarming lessons she has learned from her 2 dogs, Moose and Bear. "I am truly thankful that I've had the opportunity to welcome dogs into my life. They have taught me much about myself, work, and life. They say you can't teach old dogs new tricks, but I have witnessed, first hand, many valuable tricks we can learn from our canine companions. In this presentation I share the observations made and inspiration gained from my dogs in hopes of teaching their tricks to you to help you on your quest for contentment and to maximize your capacity by embracing work and life more enthusiastically, compassionately, and tenderly. You don't have to be a dog lover to appreciate and learn about life-changing behaviors; you simply have to be open to learn how to look at life from a different perspective and dig deep to discover your buried treasure."

Striving to maximize her capacity, she also works with her husband, Tom, using their words and photographs to inspire people. They have documented life, human and wild, in two quintessential Maine homes, a lighthouse on the coast and a log cabin in the forest, resulting in the publication of two books. The first is the multi-award-winning, *Our Point of View-Fourteen Years at a Maine Lighthouse*, featuring Marshall Point Lighthouse in Port Clyde, and the second is *By a Maine River – A Year of Looking Closely*, which explores the natural beauty found in their backyard. As passionate advocates for wildlife conservation, Tom and Lee are dedicated to sharing their words and photographs in narrated photography presentations and books to educate and inspire people about the important role our natural world plays in our lives. One of their current endeavors is a feature length film, presently in post production, that will allow audiences to experience nature's peace of forest.
